

HARVESTING OPPORTUNITIES

WISHES INTO GOALS

Our 40th Anniversary Celebration!

Career-seekers come to the Center for Work Education and Employment, from many walks of life.

Some are young parents looking to improve their skills and find a better job. Others are mid-career workers who recognize the economy is changing, and they need to upskill and reskill to remain competitive. Other CWEE career-seekers are immigrants to this country, building a new life as they navigate a new culture and systems.

What unites the career-seekers we serve is their shared drive to create a better future for themselves and their families using CWEE's programs as a launchpad.

One graduate remarked CWEE helped her "turn my wishes into goals. I never really had goals before and CWEE taught me how to believe in myself."

As this year's Harvesting Opportunities theme, Wishes into Goals illustrates the transformational impact CWEE's programs have on so many career-seekers for more than 40 years!

Join us as we celebrate CWEE's four-decade history and the many ways we're preparing our career-seekers for the future of work. We are delighted for this opportunity to bring our community together again.

Each year, CWEE helps more than 1000 workers take the next economic step toward education, vocational training, or employment. These workers reduce public assistance costs and generate more than \$1.3 million in wages annually.

The wishes that CWEE career-seekers bring to our program are cultivated into goals that ultimately result in tangible economic progress for families – and our entire economy benefits.

Your sponsorship of Harvesting Opportunities 2023 will ensure career-seekers in need can continue to use CWEE as a launchpad to achieve their goals. Thank you for supporting CWEE career-seekers and their dreams of a fulfilling career and a stable economic future.
